

10 Heuristic Evaluation	Severity Range				
	0	1	2	3	4
Visibility of System Status * Saat mengirim laporan, UI tidak menunjukkan status “terkirim” *			*		
Match Between System and The Real World * Beberapa teks kurang. Contoh: “Laporan Saya” bisa diganti “Riwayat Laporan” *			*		
User Control and Freedom	*				
Consistency and Standards	*				
Error Prevention * Form tidak terlihat memiliki validasi (email salah, password kosong, dll) *					*
Recognition Rather Than Recall					
Flexibility and Efficiency of Use					
Aesthetic and Minimalist Design		*			
Help Users Recognize, Diagnose, and Recover From Errors * Tidak ada feedback ketika pesan gagal terkirim *				*	
Help and Documentation * Tidak ada halaman bantuan atau tutorial singkat *					*
